Geotechnical Group Seminar Series
University of Michigan, Ann Arbor

“Eurocode 7 – past, present, and future”

**webinar made available by the International Society for
Soil Mechanics and Geotechnical Engineering (ISSMGE)**

Webinar lecture by
Andrew Bond, Chair of the Geotechnical Engineering Eurocode
Committee

Wednesday, February 1, 2012
16:30 – 18:00, Room 2355 GG Brown

Abstract: This recorded ISSMGE webinar will provide a 1.5 hr review of the development of Eurocode 7 and – in particular – the way it fits in with the development of other European standards for structural design, ground investigation and testing, and execution of geotechnical works. Some of the more important technical questions relating to the implementation of Eurocode 7 into design practice will be discussed and suggestions made for their possible resolution. Finally, the work that is currently underway to evolve the next generation of Eurocodes will be described.

***** Everyone is invited – cookies and refreshments will be available*****
