

## Poster Guidelines

At CEE, we are proud to display recent posters that represent the variety of research in the department. If you have a poster that you think might be a good fit for a hallway display, please read over these guidelines:

- Posters should not be more than 1 year old.
- The preferred size is 4 feet by 3 feet with a landscape-style layout.
- The posters should not be mounted.
- Preference will be given to students and groups who do not already have posters in the hallway.
- Posters should reflect CEE research.

If you have a poster that fits this description, please drop it off with Allison Lyons in GG Brown 2345.

If you created a poster that fits this description but do not have it printed, that's okay! Send the PDF to Allison Lyons at [adlyons@umich.edu](mailto:adlyons@umich.edu). The department will pay to print new posters for the hallways.

If you have a poster that is close to this description, but is a bit off (perhaps too large or too small), please send the files to Allison anyway. She will do her best to re-size posters so that they can be displayed.
